

TESS.ENERGY

SOLUTIONS

TESS – Thermal Energy Salvage / Storage *with direct conversion to electricity*
Salvages wasted thermal energy, recycles it - resilient, sustainable energy!

Global Distributor
Exclusive IP Licensing Agent

* 2022, we spent \$10T on energy, globally...

Energy Economy Crisis!

\$5T WASTED AS THERMAL ENERGY!

*iea.org, weforum.com, time.com, bo.news.com

Our Disruption Technology Will Change the World

***TESS - energy storage / conversion.**

Synthetic Phase Change Material (*programmable by mixture to project temps*)

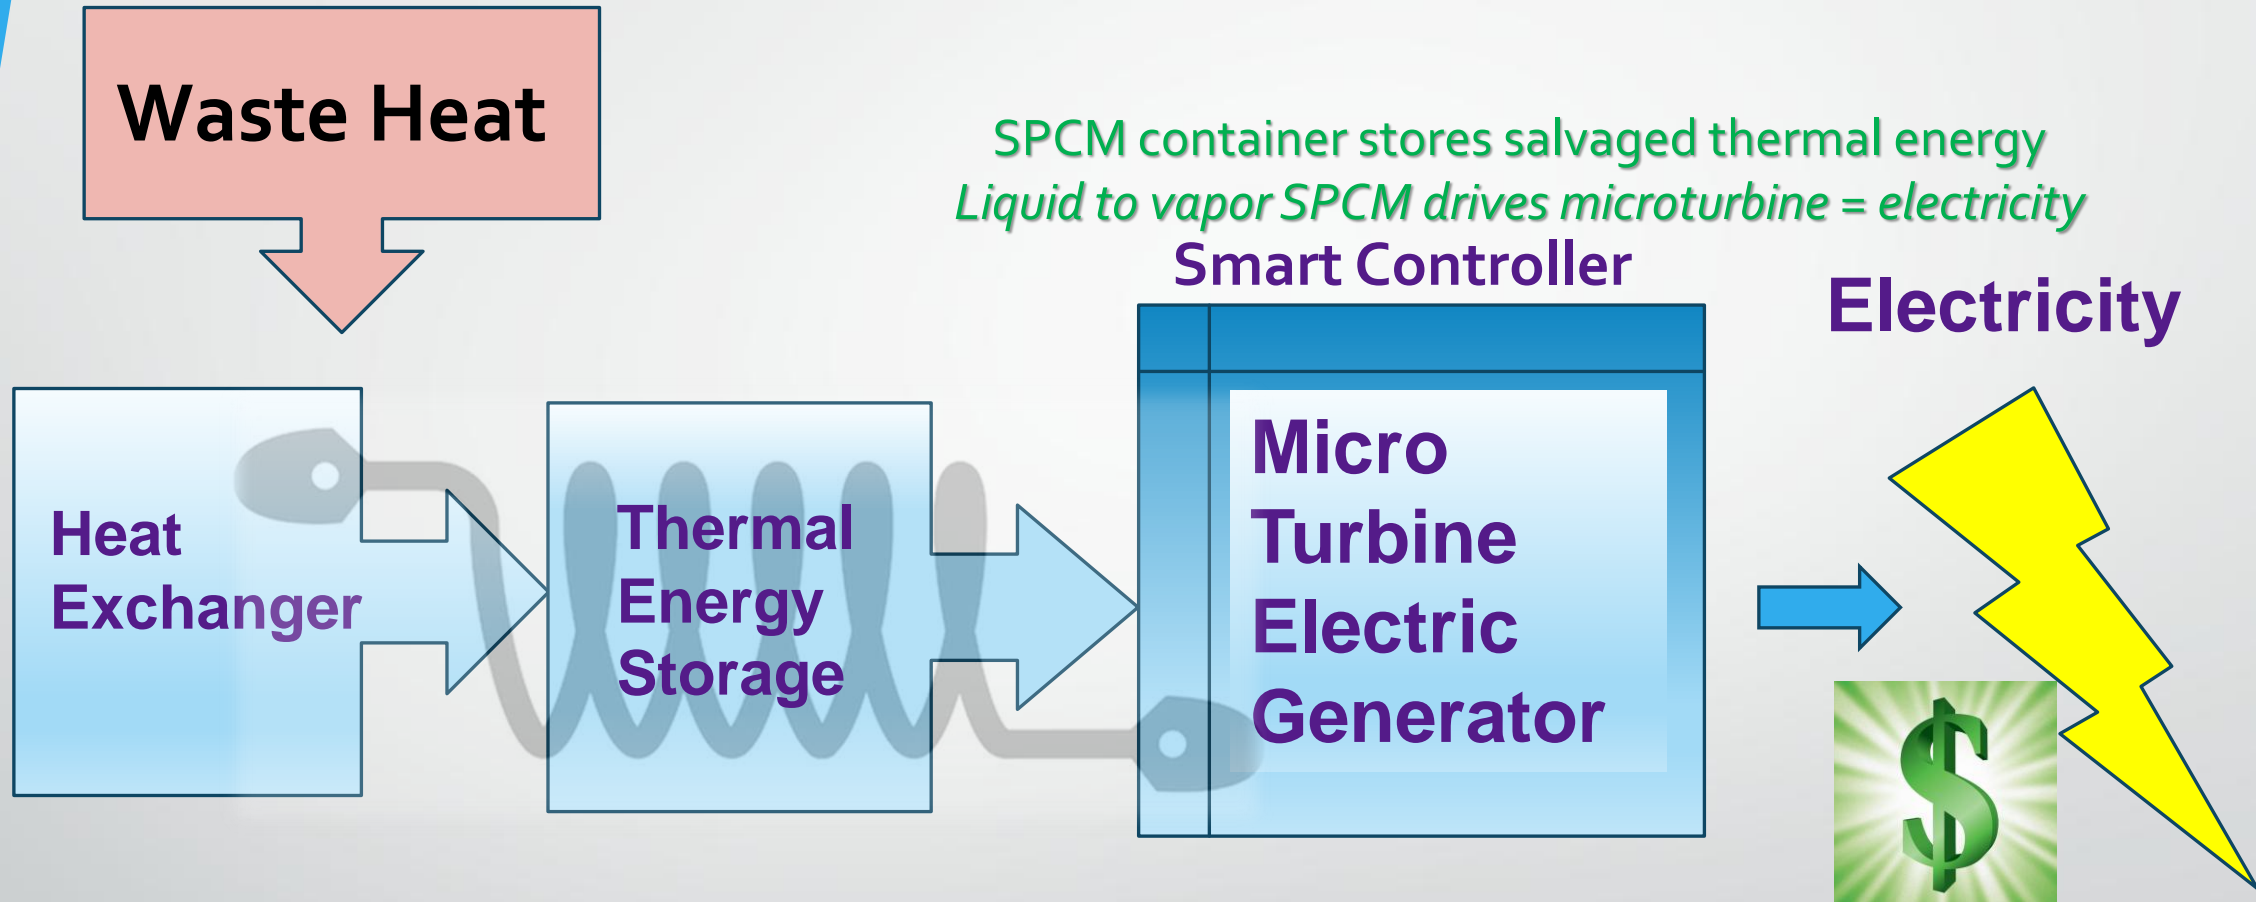

**'Plug and Play'* TESS technology salvages, recycles waste heat
enhance your bottom line and exceed ESG goals.

***Simple payback 1.5 – 4 years**
30-40% ITC
Decades of useful life

***TESS VS \$5T+ annual thermal waste.**
TESS wins for the client by slashing energy consumption by 25-40%.

How does TESS do that?

SPCM – Synthetic Phase Change Material
*Programmable by mixture,
SPCM and processes patented*

TESS in Action Generations 1-4

Edouard-Montpetit College
28% reduced energy consumption

Montreal Stock Exchange
27% Improvement

Environment Canada CMHC
45+% Improvement

Louis Brier Hospital and Home
27+% reduced energy consumption

Hearst Community Centre
29% Reduced energy consumption

What's Happening So Far

- **\$50M+ generation 1-4 in Canada Gen 5 global launch NOW!**
- **NFN8 \$4.922M closed, *Ball Metallic Container, Novelis Aluminum,***
 - ***\$23M close by end of May \$250M+ in identifiable projects in the 3-6-month sales cycle***
 - ***TESS \$1.79M per 1MW TESS, pays for itself in 1.5-4 years, lasts decades (40% ITC)***
- **Association of Energy Engineers offices bringing 8,000+ client leads**
 - ***TESS-APP can process 1000 facility studies/month***
 - **Onboarded less than 100 of 2000 AEE offices**

C Corp Reg D offering for mass production begins in MAY!

“TESS ADVENTURES, a paradigm shift”, is scheduled for
Fox Business Network America's Real Deal, Season 2

\$Billions in capital equipment financing available.

ESCOs (accredited DOE) lining up for the TESS opportunity! Distributorships and Sales Agencies, and Licensed Assembly Plant opportunities available. Financing available

Who We Are

Stephane Bilodeau, PhD. Eng.
Inventor of TESS

Michael Logan
Chairman/CEO

John Bogeman
Co CEO

Dr. John Victor Christy PhD
TESS Chief Engineer

Jim Gromer, CMO
Emmy Award
Winning Producer

TESS Executive Team
*120 years C-level experience
*UN Consultant/Inventor/Top Global Thermodynamics Engineer
*Multiple Previous Exit
*Former VP of Renewable Energy Institute
*Emmy Award Winning Producer/Director

Tony McAnelly
COO Engineering

How You Can Help Change the World and PROFIT thereby...

Current ask \$500K = 2.5% of LLC 5 Units

LLC is valued at \$22.5M. C Corp preliminary valuation: \$100M

LLC Limited Ownerships Available

Extreme ROI expected over 3 years for LLC owners

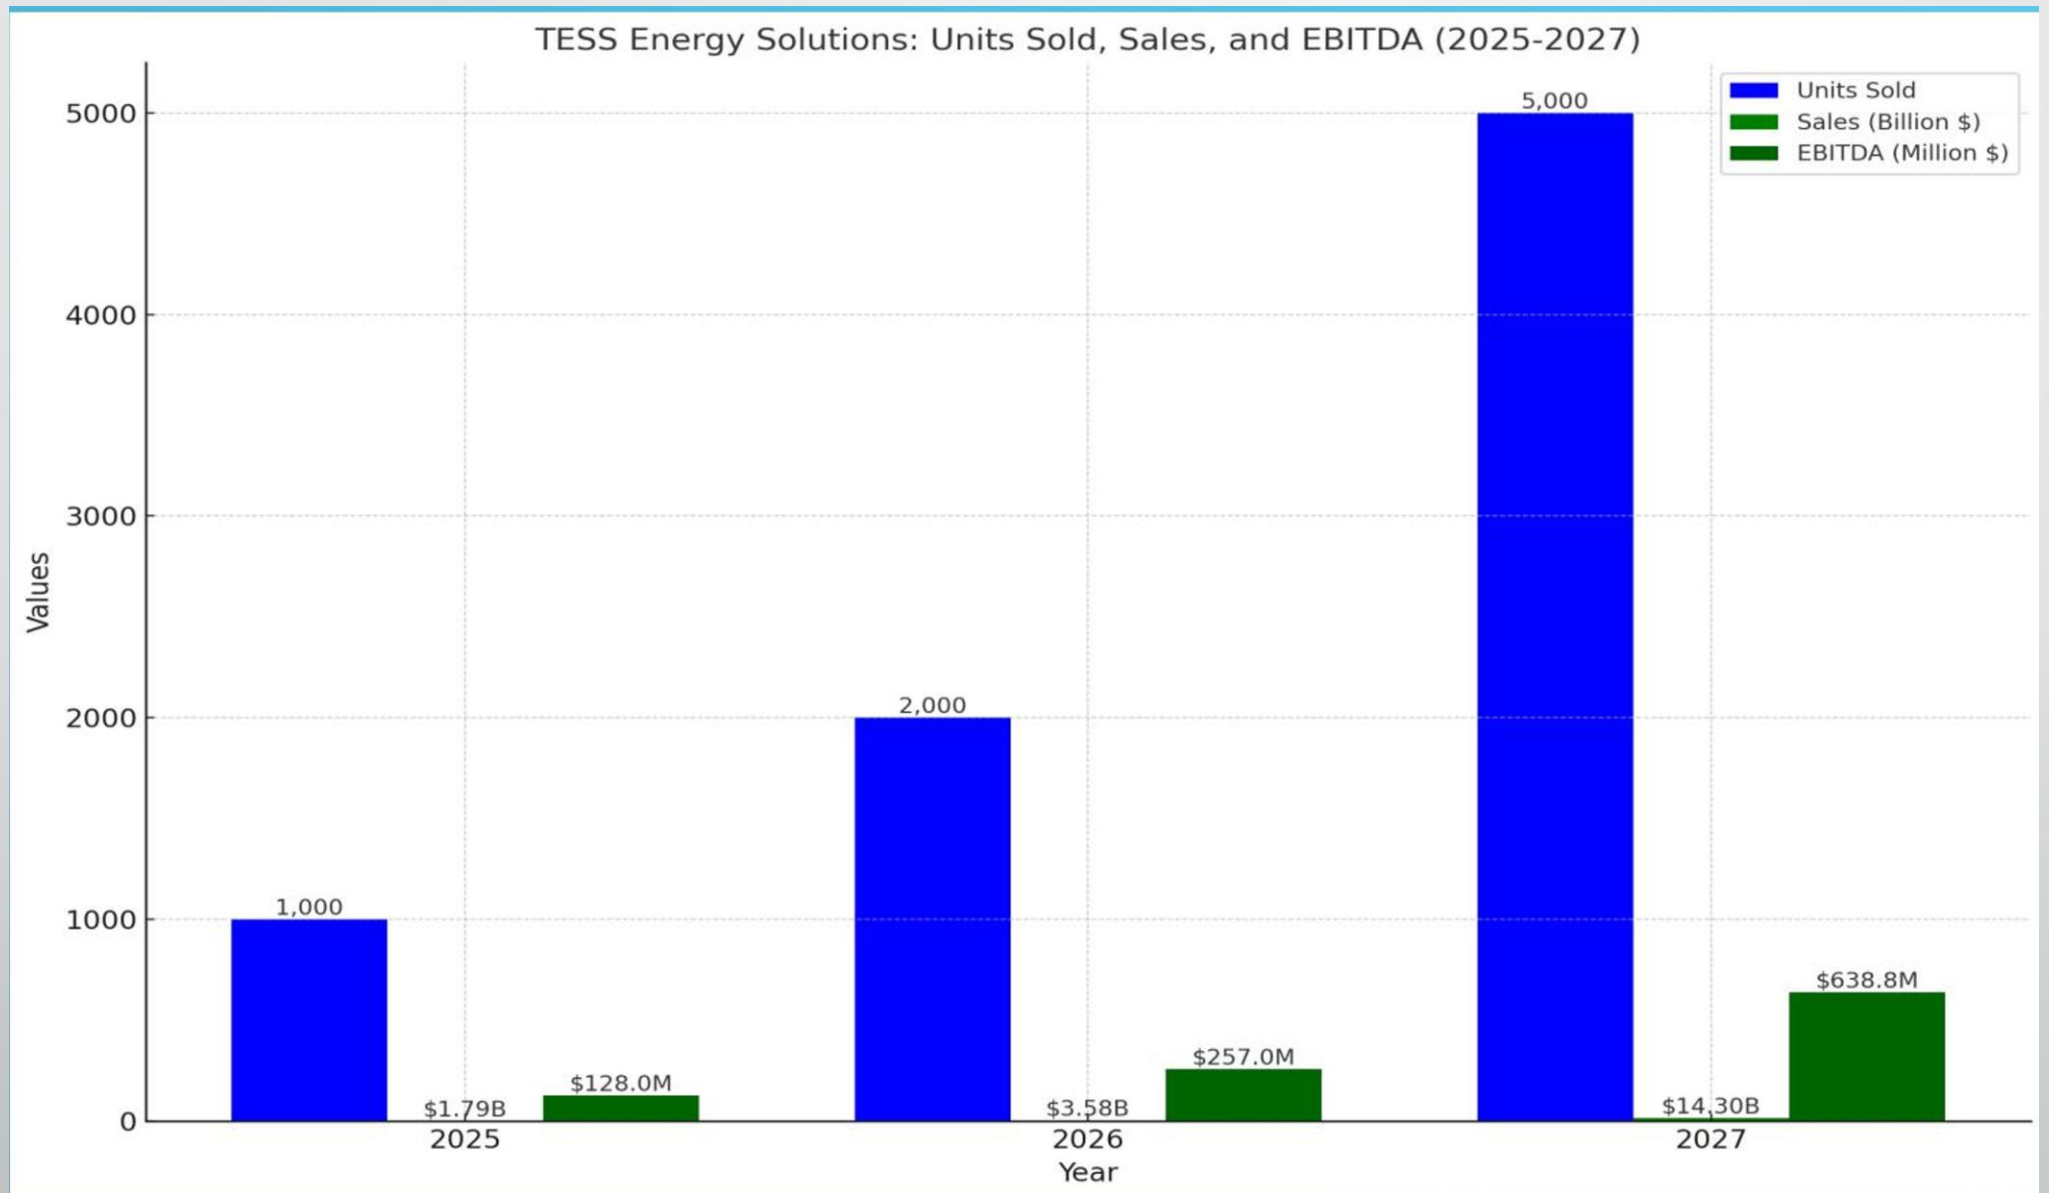

LLC will own majority of new C Corp launches April 2025

Will be the capital raise vehicle for America's Real Deal

Multi-season opportunity begins August of 2025

Three Year Projection: \$1.024 EBITDA = Significant ROI

TESS.ENERGY
SOLUTIONS

*EXIT PLAN:
BUILD EXTREME VALUE IN PRIVATE COMPANY
M&A Five Years*
